

Rafik Web - All Chats & Updates

Project: new-rafik-web-2027 (LearnMS)

Period covered: July 11, 2026 - August 11, 2026

Generated: 2026-08-11

This PDF lists every Cursor chat used to build and update this website, plus a chronological summary of edits and a feature checklist. It replaces/updates the earlier Aug 3 summary PDF.

Note: Full raw chat transcripts are long (hundreds of thousands of lines). This document is a complete topic-level archive of what was requested and shipped.

1. Feature checklist (what we built)

Branding & Home

- Instructor photo & modern home sections
- Signed-in vs guest home content
- Seniors / memories UI refresh
- Dark mode fixes across roles

Admin & Centers

- Dashboard income & stats (incl. apples)
- Multi-center attendance
- Responsive admin + Lecture Students tools
- Granted Access & Expiration Time
- Permissions UI regrouped

Learning content

- Quiz/exam rebuild (direct questions + bank)
- Auto A-D choices; fullmarks
- Direct PDF/image upload on lecture
- YouTube lecture homework embed
- VdoCipher video ID workflow
- Choose Homework (Google Form in-site)

Students & enrollment

- Lecture-by-lecture (no whole-course buy)
- Online (ONL-) vs offline students
- Add Students wizard + unique ID/phone
- Public signup toggle & step validation
- Attendance same-day enrollment grant
- Enroll-now bug fixed

Parent portal

- Parent follow-up login & dashboard
- Attendance, HW, quiz, exam visibility
- Lecture dates; choose-HW fullmarks

Apples & assistants

- Apple awards, scanners, 10-min lock
- Assistant pay/bonus + admin config
- Apple Rewards Store exchange
- Voice on successful attendance scan

Call Center

- Permissioned call list per lecture
- Call/notify + history who/what
- Excel export; called filter
- Online vs offline filters

Security & ops

- Student DevTools lockdown (+ Safari)
- Deploy/JWT/static asset fixes

- DOCUMENTATION.md
- Mobile Capacitor attempt (reverted)

2. All chats (chronological)

Total tracked project chats in this summary: 16. Each entry includes date, chat title, id (for Cursor history), and updates.

1. Website design update (Home page)

Date: Jul 11, 2026 | Chat id: 905e5a1a-cf6b-4934-8972-e0c84666d4f2

- Added Mr. Rafik photo to "Meet your instructor" in a modern layout
- Removed/cleaned image background for a cleaner look
- Home shortened: Important Lectures & Latest Content only when signed in
- Browse Course button routes student to their grade course
- When signed in: hide Why Choose Us, Academic Levels, Our Seniors

2. Admin dashboard improvements

Date: Jul 11, 2026 | Chat id: 87d2caca-c812-4410-8e28-848e776782f2

- Modernized admin dashboard front-end and statistics
- Income from lecture price with 25% center fee for offline attendance
- Richer graphics / visual polish on admin stats

3. Course purchase options removal

Date: Jul 11, 2026 | Chat id: 7a1925da-e115-4d87-9eb3-15bffb205d90

- Removed whole-course price concept (lecture-by-lecture only)
- Front-end only (no DB schema change): removed buy/enroll/renew course buttons
- Course cards show View Course instead of purchase flow

4. Granted access + VdoCipher uploads

Date: Jul 11-12, 2026 | Chat id: d611165b / 3ef0e76a / 671b1204

- Granted Access: free lecture access for selected students (grade-filtered)
- Expiration time for student lecture access (editable in admin)
- Admin dashboard made responsive for phones without rotating
- Lecture Students: mobile actions, barcode, richer attendance/enroll stats
- Multi-center offline attendance (Alpha, Hanii Pierre, extensible)
- VdoCipher: upload video first, then paste video ID in lesson setup

5. Quiz & exam model redesign

Date: Jul 16, 2026 | Chat id: ed7ec129-57ba-4988-8738-02e58cb278e6

- Rebuild quiz/exam: add questions directly (keep question bank)
- Essay questions: numeric with tolerance or manual grading later
- Fixed migrations / ExpiryMinutes / duplicate Accounts issues
- Student quiz view: show grade after submit; fix pdfUrls crash
- Exam duplicate listings & credit-open flow fixed
- Course vs lecture image display fixed on student side
- Fullmark required before entering offline homework/quiz scores

6. PDF assets + lecture video homework

Date: Jul 16, 2026 | Chat id: ff28b47c-8b3a-4323-ad02-b7c75276462e

- Add PDFs directly on lecture (multiple, each with title)
- Lecture video homework: YouTube embed in-site (no redirect)
- Image direct upload; multiple centers concept continued

7. Parent follow-up portal

Date: Jul 17, 2026 | Chat id: bd8eccda-11fc-4e02-ab59-2dc54900cad4

- Navbar + home: Parent Follow-up before signup
- Parent login (later simplified to parent + student phone)
- Follow-up: attendance, quiz/exam grades, student statistics
- Fixed white-screen issues after launch

8. Apple Rewards System (BIG feature)

Date: Jul 17-20, 2026 | Chat id: a13ed095-fe3b-443e-b9f6-dbebb489e3e1

- Merged Apple Rewards into LearnMS (separate from LE wallet)
- Manual apple awards; teacher + assistants with permissions
- Assistant pay: session base, bonus rules, max session cost
- Barcode scanners for student apples and assistant sessions
- Parent follow-up: apple balance/history (later removed from parent UI)
- Assistant names + admin-uploaded profile photos
- Permission split: Manage Students vs Manage Student Apples
- Assistant profile reward stats; dark-mode fixes site-wide
- Home seniors / memories sections UI refresh with math graphics
- Scan UX: clear after action; voice on successful attendance scan
- Admin apple statistics; Apple Rewards Store (exchange items)
- Store permission for assistants; students see their choices cleanly

9. LearnMS full documentation

Date: Jul 22, 2026 | Chat id: 8801a2d2-35f6-43db-a75a-5a12d4197c5b

- Wrote DOCUMENTATION.md covering features, enrollments, centers, etc.

10. Quiz defaults, security, mobile (reverted)

Date: Jul 23, 2026 | Chat id: d05a298c-2c4f-4549-8c12-ebdb3c46ea72

- Quiz maker: auto A/B/C/D choices when adding questions
- Student Inspect/DevTools lockdown across the student site
- Capacitor iOS/Android mobile app work started, then fully reverted
- Pushed related fixes to GitHub

11. Assistant rewards config + deploy fixes

Date: Jul 28-30, 2026 | Chat id: 4509f9b0 / 7a36a705

- Max session cost (e.g. 200) for assistant bonus system
- Admin UI to edit base pay, bonus, sessions-for-bonus, max value
- Parent follow-up: lecture creation date for absences
- JWT/static-asset auth log noise reduced; white-screen deploy fixes
- Lecture creation date shown for assistants (Mina request)

12. Choose Homework (Google Form) + Call Center + ops

Date: Jul 30-31, 2026 | Chat id: 830e791a-956d-45b9-9356-49e659256492

- Choose Homework: embed Google Form in-site; link responses to student ID
- Keep essay homework separate; sync scores; fullmark from form
- Google sign-in stays in frame; Dropbox/env for service account
- Parent: choose-HW fullmark, lecture dates; remove apples from parent UI
- Parent login: parent phone + student phone (no student ID)
- New grade: 3rd Secondary Adbby (3rd Secondary Adbby (AR))
- Lecture overview: count scored HW/quiz (not averages)
- Scores tied to attendance center; split centers behavior

- Attendance grants same-day enrollment (excluded from enroll stats)
- Source Choose HW after attend; prefill name/student ID on form
- Apple scanner 10-min lock against re-scanning same ID
- Call Center feature + permission: present/absent, quiz/HW, call, notify
- Call Center Excel export + filter by called/not called

13. Students management, Call Center history, UX

Date: Aug 3-6, 2026 | Chat id: 1d67a68b-1782-4cca-9359-96c8603e16c6

- Online vs offline students; auto ID ONL-xxxxxx for online
- Unique student ID + unique student phone; differ from parent phone
- Separate Add Students feature + permission; step wizard UI
- Per-step validation (ID/phone availability); public signup wizard
- Admin switch to disable public student signup
- Arabic translations for new flows; Safari DevTools lock compatibility
- Granted Access / Expiration: direct search (not only dropdown)
- Admin sidebar: regroup Users into clearer categories
- Call Center: call + notify history (who, comment); history permission
- Permissions UI regrouped with titles for easier admin use
- Signup preview step before submit; offline/online filter in Call Center
- Earlier PDF summary of chats generated (Aug 3)

14. Website improvement suggestions (discussion)

Date: Aug 4, 2026 | Chat id: 842afedd-2167-4792-9fb1-f3e6d3d98d07

- Ideas discussed: parent follow-up, call center, video encryption, graphics
- (Planning / suggestions chat; not all items implemented in that thread)

15. Call Center polish + enrollment bugfix

Date: Aug 6-9, 2026 | Chat id: abacdeb3 / 1635be88

- Call/notify history & permissions finalized
- Offline vs online distinction in Call Center UI/messages
- Preview option on signup flows
- Fixed student "Enroll now" error (enrollment bug)

16. This summary (all chats ? PDF)

Date: Aug 11, 2026 | Chat id: 2cf23ef1-0832-4f39-9b4a-5bdd9c8f7182

- Full re-summary of all Rafik web chats and updates into this PDF

3. Selected git commits (evidence of shipped work)

- 01b7a61 - adding THE BIG ONE APPLES SYSTEM
- 7a82f15 - add parent follow up concept
- bb7f5e7 - adding more than one center concept
- b810c64 - adding lecture homework concept
- 167aeaa - adding a,b,c,d by default for quiz
- d606168 - security to prevent student attack on web
- 252370a - add apples store
- 72f0339 - add choose homework concept
- 97406bd - add new concept call center
- 90944a8 - adding export to call center
- 2e9250f - adding call center history
- 585fdae - online/offline student choice
- 552cacb - separate create student from students management
- a3795ba - public signup wizard + availability endpoint
- 0bc2f61 - differ online from offline in call center
- 73874ea - fix enrollment bug

4. How to open a past chat in Cursor

In Cursor Chat history, search by the chat title above, or use the chat id. Example links use the form: cite parent chat transcripts as [Title](uuid). Project transcript folder: agent-transcripts under the Cursor project for new-rafik-web-2027.
